Link to your project's GitHub repository.

Technical Documentation

Describe your tech stack, architecture decisions, and implementation approach.

Describe your technical stack, architecture decisions, and implementation approach...

Architecture design overview

Outline the main components, workflows, and technical structure of your solution.

Describe your system architecture: key components, data flow, integrations, on-chain vs off-chain logic...

How does a user interact with your solution from start to finish?

Walk us through the full user journey step by step.

Step 1: User lands on... Step 2: User connects wallet... Step 3:...

MoSCoW Framework — Feature Prioritization

Analyze the most important features to build using the MoSCoW framework: **Must Have**, **Should Have**, **Could Have**, **Won't Have**. Describe each category clearly.

```
Must Have:
- ...

Should Have:
- ...

Could Have:
- ...

Won't Have:
- ...
```

Walkthrough Video

https://loom.com/share/... or https://youtube.com/...

https://youtu.be/MsDcbWludOo ×

Link to a product walkthrough video (max 5 minutes) demonstrating your key features. This replaces your Stage 1 pitch video.
